WOODBINE MAKES APPLICATION TO NJDOT FOR APPROXIMATELY \$2.5 MILLION IN GRANT FUNDING

Woodbine—Mayor William Pikolycky is pleased to announce that the Borough of Woodbine has submitted applications to the New Jersey Department of Transportation Local Municipal Aid Program for four projects, totaling \$2,445,425.

Two will be for road reconstruction, the third is bikeway upgrades (widening and resurfacing), and the fourth as an additional phase embellishing on the streetscape.

The applications for roadway reconstruction and drainage improvements are will be for Sumner Avenue and Heilprin (\$721,844) and for Fremont Avenue (\$526,815).

Requested for the bikeways improvement was \$777,803, which would be for renovation and upgrading of the Woodbine bikeway from Grant Avenue to the south end (the Borough Boundary with Dennis Township).

The Downtown Streetscape Improvements to Adams Avenue and Franklin Street include construction of a small parking lot in the Town Commercial District located at the corner of Adams Avenue and Franklin Street, as well as streetscape improvements in the Town Center District along Franklin Street, Adams Avenue, and the median island at Washington Avenue and DeHirsch Boulevard. These would include benches, trash receptacles, landscaping, a gazebo, electrical improvements, concrete paver walkways within the median island at DeHirsch and Washington as well as decorative street lighting along Adams and Franklin. Requested funding is \$418,963.

“The Borough has been successful in the past with the Department of Transportation providing us with the necessary funding for maintaining our infrastructure, as well as aesthetic improvements to our Town Center,” noted Mayor Pikolycky.
