WOODBINE VOLUNTEER FIRE DEPARTMENT GIVES PRESENTATIONS FOR FIRE PREVENTION WEEK

Woodbine—Mayor William Pikolycky is pleased to announce that the Woodbine Volunteer Fire Department visited both Woodbine Elementary School and the Woodbine Head Start Center on October during October's annual Fire Prevention Week (October 11-14).

At the Elementary School the firefighters did presentations for the first and second graders and made a special visit to the eighth grade to let them know about the Fire Departments "Junior Firefighters" program.

"I want to thank our volunteer firefighters for taking their own time to provide this awareness training on understanding the importance of fire prevention, which both protects the children's own lives and property and additionally prevents putting the lives of firefighters at risk," added Mayor Pikolycky
