SOUTH JERSEY GAS TO HOLD INFORMATION DAY AT WOODBINE BOROUGH HALL

Woodbine—Mayor William Pikolycky is pleased to announce that on Thursday, August 25, South Jersey Gas officials will be on hand at the Woodbine Municipal Building, 501 Washington Ave., to meet with homeowners interested in receiving natural gas service and lowering their heating bills by as much as 60 percent over other fuels.

The community information day, which will be held from 12 p.m. until 5 p.m., will allow residents to learn about natural gas, ask questions, and discuss incentives and other rebates offered by SJG. In addition, officials will also help residents fill out applications for service. The event will be open to the public and light refreshments will be served.

Those who can't attend, but who are still interested in converting to natural gas, may contact Heather McCurdy, SJG's residential energy efficiency consultant for the area, by calling (609) 289-6050 or emailing hmccurdy@sjindustries.com.

South Jersey Gas is the principal subsidiary of South Jersey Industries (NYSE: SJI) and provides natural gas utility service to over 348,000 residential, commercial and industrial customers in Atlantic, Cape May, Cumberland, Salem, and significant portions of Gloucester, Burlington and Camden counties in New Jersey. Visit www.southjerseygas.com for more details about the company and its program.

"We thank South Jersey Gas for making themselves available for this informational day for Woodbine residents and invite all those interested in learning more about natural gas service to stop in. Anyone with an outstanding application or who is contemplating submitting one is particularly encouraged to speak with South Jersey Gas representatives at this time to receive updates and have questions answered," added Mayor Pikolycky. "There are grant opportunities available for qualifying homeowners."
