Woodbine—Mayor William Pikolycky is pleased to announce that the New Jersey Department of Transportation, Division of Aeronautics, has awarded a grant in the amount of \$346,555 to Woodbine Municipal Airport.

This funding proposal would support a \$364,795 airport safety project that would encompass the design and installation of a high-quality security fencing system.

“This fencing would serve not only as general security and wildlife control, but also address the growing problem of ATV use on our runways,” added Mayor Pikolycky.

This funding is made possible through the New Jersey Transportation Trust Fund which has benefited Woodbine not only in its transportation-related projects but also in improving the municipal infrastructure.
