BOROUGH RECEIVES RECOGNITION FROM U.S. CENSUS

Woodbine—Mayor William Pikolycky is pleased to announce that the Borough of Woodbine was presented with a plaque from the United States Census Bureau in recognition of their work in assisting with data collection necessary for the Bureau as it undertook the 2010 census.

“I applaud the hard work of my staff members who collated the necessary information and repeatedly made timely reports to the Census Bureau in order to establish the most recent and up-to-date data about the Borough,” applauded Mayor Pikolycky. “It required many hours of cross-referencing from various sources. I also thank the U.S. Census Bureau for recognizing Woodbine for its commitment to see that “everyone counts”.”
