### **County Library Hosts littleBits Technology Workshop for Teens**

**Woodbine**—Mayor William Pikolycky is pleased to announce that the Cape May County Library invites tweens and teens in grades 6-12 to a special technology-based session featuring littleBits that will be held at 2:30 on Tuesday, April 26 , at the Woodbine Branch library located at 800 Monroe Avenue in Woodbine.

littleBits are electronic blocks that create working circuits. The Teen Services Department and Technology Learning Center will show you how they work so that you can create circuits that light up and play sounds!

Open to Grades 6-12. No one younger can participate. Coloring sheets will be provided for younger siblings. NO REGISTRATION REQUIRED. Just show up! Look for our take-home craft in our local branch's teen space, too! All teens can visit and use all branches of the Cape May County Library. Home schoolers welcome and invited to participate in all library events!

Registration is not required for this event. For more information, please contact the Cape May County Library Teen Department at (609) 463-6357 or email us at [teen@cmclibrary.org](mailto:teen@cmclibrary.org).

“We are pleased and excited to see this collaboration between the Teen Services Department and the Technology Learning Center for such a special program for our local tween & teen patrons, whatever schools (or homeschooling) they attend,” added Mayor Pikolycky.
