### **WOODBINE RECEIVED RECYCLING MINI-GRANT**

**Woodbine**—Mayor William Pikolycky is pleased to announce that the Borough of Woodbine has received a recycling reimbursement mini-grant in the amount of \$2,000 from the Cape May County Municipal Utilities Authority for the purchase of specialized recycling stations for the collection of commingled recyclables and litter. These will be placed in the Borough's various park and playground locations, as well as along the Borough bikepath. This represents the County Municipal Utilities Authority's support for the Borough's efforts to make recycling in public areas both easy and convenient, while being environmentally protective through increasing recycling percentages.

"I am pleased with the Borough success in its recycling efforts whereby alleviating costs to the Borough's tipping fees and also for this opportunity to encourage increased recycling in our recreational areas," noted Mayor Pikolycky.
